The Journal of Systems and Software

Volume 8, Number 1, January 1988

Contents

Introduction to the Special Issue on Software Engineering 1
Warren Harrison

A Technique for Hiding Proprietary Details While Providing Sufficient Information for Researchers; or, Do You Recognize This Well-Known Algorithm? 3
Sallie Henry

A Standard Representation of Imperative Language Programs for Data Collection and Software Measures Specification 13
James M. Bieman, Albert L. Baker, Paul N. Clites, David A. Gustafson, and Austin C. Melton

SMDC: An Interactive Software Metrics Data Collection and Analysis System 39
T. J. Yu, B. A. Nejmeh, H. E. Dunsmore, and V. Y. Shen

A Tool for Statistical Modeling and Estimation of Reliability Functions for Software: SMERFS 47
William H. Farr and Oliver D. Smith

MAE: A Syntactic Metric Analysis Environment 57
Warren Harrison

The Use of Case Study Data in Software Management Research 63
E. Burton Swanson and Cynthia M. Beath

Biographies 73

The Journal of Systems and Software

Volume 8, Number 2, March 1988

Contents

Editor's Corner 75
Robert L. Glass

A Declarative Logic Programming Environment 77
Henryk Jan Komorowski

Complexity of the EQUATE Testing Strategy 91
Steven J. Zeil

Composite Index in DDBMS 105
B. C. Desai, P. Goyal, and F. Sadri

Software Metrics: An Overview of Recent Results 121
V. Cote, P. Bourque, S. Oligny, and N. Rivard

Analysis of Reliability Models for Interconnecting MIMD Systems 131
M. Zaki and M. M. El-Boraey

Controversy Corner: Learner Preference for Using Structured Flowcharts vs. Pseudocode When Comprehending Short, Relatively Complex Algorithms: A Summary Analysis 145
David A. Scanlan

Biographies 157

The Journal of Systems and Software

Volume 8, Number 3, June 1988

Contents

Editor's Corner 159
Robert L. Glass

The Pre-Natal Death of the CIS Project: A Software Disaster Story 161
Tom Gilb

Designing Complex Software 165
A. F. Norcio and L. J. Chmura

Measuring Software Design Complexity 185
D. N. Card and W. W. Agresti

Eiffel: A Language and Environment for Software Engineering 199
Bertrand Meyer

A Multiprocessor Model with Classes of Processes and Priorities 247
Anna Hać

Opinions: System Sizing 253
Lawrence Bernstein

Biographies 255

The Journal of Systems and Software

Volume 8, Number 4, September 1988

Contents

Editor's Corner 257
Robert L. Glass

The Design and Implementation of a Dynamic Binding Feature for a High-Level Language 259
Rex E. Gantenbein and Douglas W. Jones

An Efficient Method Lookup Technique for Secondary Storage Object-Oriented Systems 275
Roger Wiens and Mohammad A. Ketabchi

Object Management in Local Distributed Systems 283
Songnian Zhou and Roberto Zicari

A Taxonomy for the Early Stages of the Software Development Life Cycle 297
Alan M. Davis

Fundamental Differences in the Reliability of N-Modular Redundancy and N-Version Programming 313
Dave E. Eckhardt and Larry D. Lee

Understanding the "90% Syndrome" in Software Project Management: A Simulation-Based Case Study 319
Tarek K. Abdel-Hamid

Resource Utilization during Software Development 331
Marvin V. Zelkowitz

Biographies 337

The Journal of Systems and Software

Volume 8, Number 5, December 1988

Contents

Editor's Corner 339
Robert L. Glass

A Petri Net Framework for Automated Static Analysis of Ada Tasking Behavior 343
S. M. Shatz and W. K. Cheng

Linkage Versus Integration for Binding Database and Interactive Graphics Systems 361
M. Zaki and R. Salama

An Improved Ada Run-Time System Interface 373
T. P. Baker

A Discussion of Past Programming Errors and Their Effect on Learning Assembly Langauge 395
Kathleen M. Swigger and Layne F. Wallace

WEP—A Workstation for Education in Programming 401
D. Christodoulakis and T. Pantziou

A Language Construct for the Specification of Discontinuities 409
S. Javey

Cépage: Toward Computer-Aided Design of Software 419
Bertrand Meyer

Biographies 431

Subject Index to Volume 8 433

Author Index to Volume 8 434
